## TABLE OF CONTENTS

Charoen Pokphand Group (C.P. Group) recognizes the United Nations Sustainable Development Goals (UN SDGs) as a representative of the global agenda for sustainable development. C.P. Group, therefore, embedded the Goal to combat major concerns covering economic, environmental and social challenges.

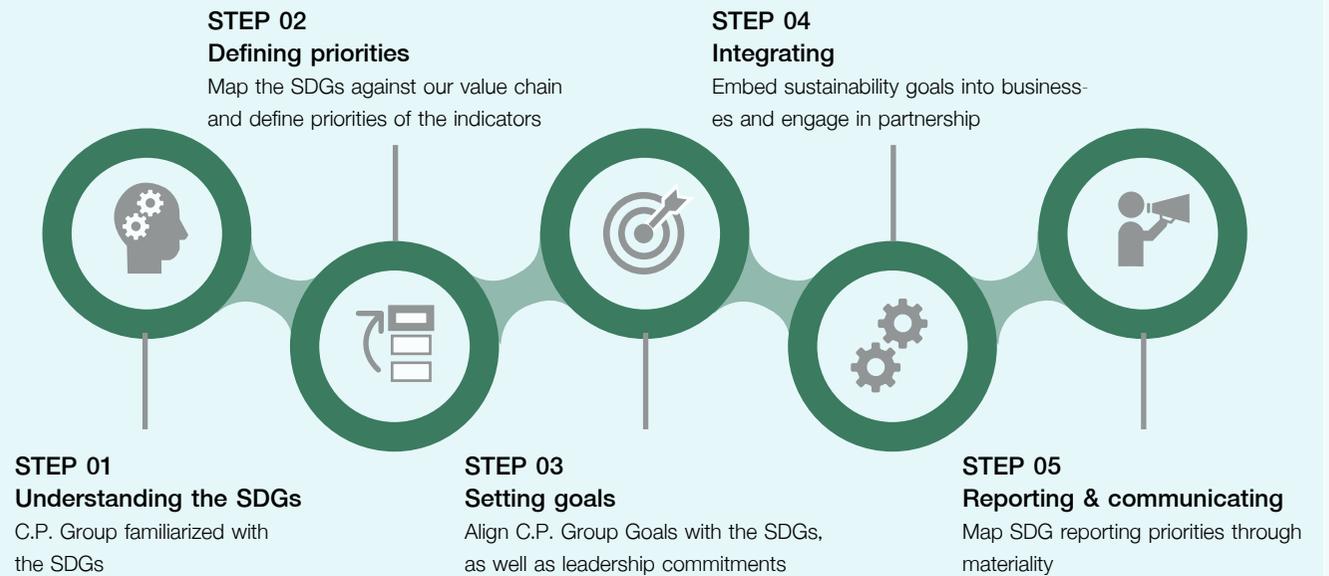

# It is our responsibility to Help Deliver The United Nations Sustainable Development Goals

The Sustainable Development Goals (SDGs) is one of the framework adopted in the C.P. Group 2030 Sustainability Framework and Goals, the strategies, measurements, as well as activities, which contributes to opportunity to eradicate extreme poverty and shape a sustainable future for the company, the society, and the world.

C.P. Group incorporate the SDG Compass as a guideline and began with the five steps that allow us to maximize contribution to the SDGs and ensure that sustainability is an outcome of core business strategy.

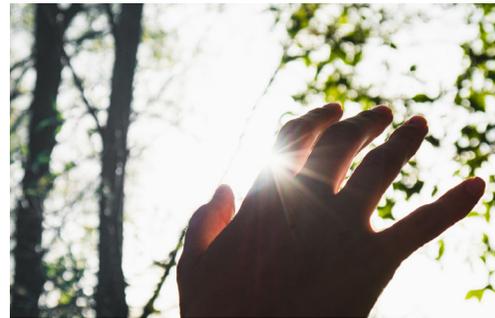

## C.P. Group's Embed the SDGs Compass Guiding Process

# Charoen Pokphand Group's Contribution to The United Nations Sustainable Development Goals

As a world-class organization, Charoen Pokphand Group is committed to build a sustainable future for the country, people, and our employees. The Group attaches great importance to and embraces sustainability as one of our primary missions to contributing to the achievement United Nations Sustainable Development Goals or SDGs.

In 2016, Charoen Pokphand Group established its first sustainability strategy or 2020 Sustainability Goals (Thailand). International frameworks were used during the development of such Goals, namely UN Global Compact Principles, United Nations Guiding Principles on Business and Human Rights, and United Nations Sustainable Development Goals. At the end of the Group's first sustainability era, the Group found that it was able to achieve majority of the 2020 Sustainability Goals (Thailand). To continuously pursue our sustainability commitment, in 2021 the Group announced 2030 Sustainability Framework and Goals, which is also entailed as second era of our sustainability. In addition, the Group also prioritized our contribution to SDGs according to the direct and indirect impact that the Group have on each issue as well as relevancy to corporate visions and the 2030 Sustainability Goals

Charoen Pokphand Foods Public Company Limited promotes the adoption of circular economy principles in its 7 layer chicken complexes across the country. In the chicken farming process, waste is managed with a system that produces biogas from chicken manure, helping to reduce odors and greenhouse gas emissions into the atmosphere. Meanwhile, clean energy is obtained from methane fermentation process where wastewater is turned into biogas and can be used to generate electricity within the complex. This has contributed to reducing electricity costs by 65-85%.
