Charoen Pokphand Group

Reduce or Phase-out Hazardous Substances Commitment

Charoen Pokphand Group recognizes the importance of appropriately managing hazardous chemicals and substances used in our products, services, and operations. In accordance with applicable standards, our C.P. Group's hazardous chemicals and substances management policy, and our product stewardship policy, we are committed to reducing or eliminating the use of hazardous chemicals or substances.

C.P. Group is committed to reducing or phasing out the use of hazardous chemicals and substances in our products and services, in accordance with the hierarchy of controls and applicable national and international laws, regulations, and standards related to chemical use, such as the Notification of the Ministry of Industry, Thailand: List of Hazardous Substances (No.7) B.E. 2565 (2022), and the Restriction of Hazardous Substances (RoHS). This is to ensure the regulation of chemical use throughout the product lifecycle.

Therefore, all related business units within C.P. Group must report any nonconformity cases related to the use of hazardous chemicals and substances controlled under the List of Hazardous Substances (No.7) B.E. 2565 (2022) and the Restriction of Hazardous Substances (RoHS) in our products and services annually.

Additionally, C.P. Group is committed to phasing out the use of Hydrochlorofluorocarbons (HCFCs) in our services business by 2040, in accordance with the Montreal Protocol phase-out schedule for developing countries, which addresses both ozone depletion and climate change.
